The spring was named Waimiha o Kahu after the ceremonial healing ritual called “Purea I te Wai” or purification by the water, which was performed there by the high priests. At the summit another ritual termed “Purea I te Hau” or “purification by the wind” was also performed. Importantly Waimiha means, “water ritual” with a “Miha” being the actual blessing process or karakia performed with the use of the spring water</p>

SCHEDULE 1

Description of Land:

[33 hectares approximately, subject to survey.]

Reserve Values to be protected:

This block is of ecological significance because of the unique succession from frost flat vegetation to podocarp-hardwood forest and as habitat for *Dactylanthus taylorii*.

This block consists of two main vegetation types: a) tall podocarp-hardwood forest dominated by kahikatea (*Dacrycarpus dacrydioides*), tawa (*Beilschmiedia tawa*), rimu (*Dacrydium cupressinum*), matai (*Prumnopitys taxifolia*) and miro (*Prumnopitys ferruginea*), with an understory of whauwhaupaku; and b) frost flats of *Dracophyllum/Pittosporum* scrub consisting of monoao (*Dracophyllum subulatum*), twiggy tree daisy (*Oleria virgata*) and *Pittosporum colensoi*.

This site is one of only two sites around Pureora village where there is a natural succession from frost flat vegetation to podocarp forest (the other is on the opposite side of Kotukunui Rd). Most frost flats, generally dominated by monoao, were planted with exotic conifers during the 1920s & 30s and later converted to pasture or remained as plantations. The few remaining frost flats are now under threat of displacement by exotic plants such as gorse (*Ulex europaeus*), broom (*Cytisus scoparius*) and Spanish heath (*Erica lusitanica*).

The ecotone between the two vegetation types is also host to *Dactylanthus taylorii* which continues in a band (shown in Figure 2) along the ecotone. *D taylorii* is ranked as Nationally Vulnerable and is in decline because of habitat destruction for farming and forestry, collection for its ornamental value, pig rooting and browsing of flowers by rats and possums.

SCHEDULE 1

Description of Land:

[23 hectares, subject to survey].

Reserve Values to be protected:

Several native species are present on the Land including horoeka (*Pseudopanax crassifolius*), whauwhaupaku (*Pseudopanax arboreus*), toetoe (*Cortaderia toetoe*), narrow-leaved mahoe (*Melicytus lanceolatus*) and one bog pine (*Halocarpus bidwillii*).

In particular, larger areas of native vegetation are still present around swamp areas, dry gullies and riparian margins. The riparian margins consist mainly of monoao (*Dracophyllum subulatum*), *Pittosporum colensoi* and mingimingi (*Coprosma propinqua*) while the swamps are dominated by waewaekaka (*Sticherus cunninghamii*) and sharp spike sedge (*Eleocharis acuta*) surrounded by monoao and manuka (*Leptospermum scoparium*). Also present in the swamps are kahikatea (*Dacrycarpus dacrydioides*) and swamp astelia (*Astelia grandis*). The swamps are of importance as there are less than 10% of New Zealand's wetlands remaining nationally. Swamps such as this provide important services such as erosion control and reducing nutrient run off and represent rare and threatened ecosystem types.

There is an historic record for *Pimelea tomentosa* along a tributary to the Waimiha stream. The GPS location for this site is E1823988 N5735856 . *P. tomentosa* is ranked as Nationally Vulnerable. The main threats to this species are habitat loss via land clearance, succession (progressive change in vegetation type to vegetation that is unsuited to *P. tomentosa*), competition with weeds and browsing by goats and deer.

SCHEDULE 1

Description of Land:
[to be defined by survey]

Reserve Values to be protected:

The house was the first and is the last remaining of the original timber workers' houses in the Pureora settlement. The first family moved in on 22 November 1949. It was one of five "flat top" prefabricated houses purchased and erected on behalf of the Ranginui mill (operated by the Hutt Timber & Hardware Co.) to house mill workers and their families. The house was prefabricated in Hamilton, as part of a nationwide plan to improve housing standards of mill and bush workers and help maintain families in the milling industry. In 1996, the then-owners of the house, Mr and Mrs Russell, offered to gift the house to the Department of Conservation on the condition that it was to be maintained and preserved as an historic place.

The Pureora Store building was trucked to Pureora Forest in three pieces and assembled on site. The owners of the store lived in Pureora Forest and provided a service to residents through the operation of the store and petrol sales until 1987.

The Consideration applicable pending resolution of the dispute is the Consideration applicable in the immediately preceding year with any adjustments to be made when the dispute is resolved.

8. SURRENDER BY GRANTEE

8.1 If during the term of the Forestry Right granted pursuant to clause 2.1 all or any part of the Forest Area is not required by the Grantee for the purposes of managing, protecting and harvesting the Trees, the Grantee shall notify the Grantor in writing of those parts of the Forest Area which it no longer requires, and provided those parts of the Forest Area constitute a Surrender Area the Grantee shall surrender the Surrender Area to the Grantor.

8.2 The Surrender Area must be in the condition provided for in Appendix 4 before surrender to the Grantor.

- 8.3 Surrender of a Surrender Area pursuant to this clause 8 shall become effective on a date (at least six months after delivery of the notice) set out in the notice in writing from the Grantee to Grantor made under clause 8.1.
- 8.4 The Consideration and Rates payable for the remainder of the year in respect of the Surrender Area, shall be reduced by the proportion that the Surrender Area bears to the total Forest Area (with effect from the date of surrender) or as further proportionately reduced under this clause 8.4. If the parties are unable to reach agreement on the amount of the Consideration and Rates payable in accordance with this clause 8.4, the matter will be resolved in accordance with the procedure set out in clause 11.
- 8.5 Where the Consideration and Rates paid by the Grantee in a year in which a surrender occurs pursuant to clause 8.3 exceed the amount of the Consideration and Rates properly payable in accordance with clause 8.4, the difference shall be refunded to the Grantee.
- 8.6 From the date on which the Surrender Area becomes effective, the Grantee shall have no further rights to harvest any Trees on that Surrender Area.
- 8.7 Any roads that are outside the Surrender Area and no longer required by the Grantee either for access or for any other purpose associated with this forestry right may be returned to the Grantor as Return Roads provided that at the time of any such return they are in good order suitable for passage by light four wheel drive vehicles. The Grantee shall have no further rights or obligations in regard to any such Return Roads.

9. FORCE MAJEURE

Should either party be unable to perform its obligations hereunder totally or partially by reason of any matter beyond the reasonable control of that party, that party shall be released from such obligations to the extent and for the time performance is so prevented.

10. ASSIGNMENT

- 10.1 If at any time during the Term the Grantee wishes to transfer, assign or otherwise dispose of its entire interest in this Forestry Right;
- 10.1.1 The Grantee shall give written notice to the Grantor offering to dispose of its interest in the Forestry Right to the Grantor, at a price and on the terms and conditions set out in the notice. The Grantee may withdraw a notice at any time before acceptance.
- 10.1.2 If the Grantor –
- (i) accepts the offer by notice in writing to the Grantee before the expiry of one calendar month after receiving the notice (“the Expiry Date”) a contract is constituted between the Grantee and the Grantor at the price and on the terms and conditions in the Grantee’s notice;
 - (ii) does not accept the offer by notice in writing within one calendar month, the Grantee may, at any time within the period of two years after the Expiry Date, dispose of all or part of its interest in the Forestry Right to an entity other than the Grantor (as the case may be) subject to clause 10.1.3;

10.1.3 The price and the other terms and conditions of the disposal may not be more favourable to the purchaser than those that were set out in the notice;

10.1.4 After the two year period referred to in clause 10.1.2 (ii) if the Grantee still has an interest in the Forestry Right or notice is withdrawn in accordance with clause 10.1.1, clause 10.1.1 applies again.

10.2 Should the Grantor not wish to participate in any sale process or not be the successful purchaser on any sale, the Grantee may then transfer, or otherwise dispose of its entire interest in this Forestry Right subject to obtaining the prior written consent of the Grantor. Such consent is not to be unreasonably or arbitrarily withheld or delayed in the case of a transfer or assignment to a reputable and solvent person or body corporate (the Transferee) capable of performing the Grantee's obligations under this Forestry Right. Any dispute as to the capability of the Transferee is to be resolved by Dispute Resolution (as set out in clause 11).

10.3 On assignment or transfer of this Forestry Right in accordance with this clause, the Grantee will be released from all future obligations as Grantee in this Forestry Right but without prejudice to the rights of either party against the other in relation to any antecedent breach or non-performance arising prior to the date of such assignment or transfer.

11. DISPUTES

11.1 A party claiming that a dispute has arisen concerning this Forestry Right must give notice to the other party specifying the matter in dispute. The parties will use their best endeavours to resolve the dispute by negotiation in good faith.

11.2 If the dispute cannot be resolved within twenty (20) business days after the date of the notice referred to above, the dispute or difference arising in connection with this instrument shall be referred to the President of the New Zealand Institute of Forestry ("the President") to appoint a person to act as an independent expert to determine the dispute. The parties shall request that the matter be determined within twenty one (21) days of their referral. 11.3 Either party may, within five (5) business days of the President's appointment of an expert, give written notice to the other and to the President that the appointed expert is not acceptable to that party whereupon the President shall appoint another expert PROVIDED THAT neither party shall exercise its rights under this clause 11.3 more than two (2) times in respect of any one matter referred for determination.

The person determining the dispute shall:

- a) be deemed to be an independent expert and shall act as such and not as an arbitrator;
- b) take into account in such determination submissions made by either party and all other information from other sources previously disclosed to the parties; and
- c) keep all information received from either party confidential and shall not disclose such information to any person without obtaining the written consent of the party which supplied that information.

11.4 The decision of the expert shall be binding on the parties.

Appendix 4: Surrender Area Condition for Surrender

Prior to a surrender of a Surrender Area pursuant to clause 4.2.5 the Surrender Area must be in a post-harvest condition consistent with accepted good practice according to New Zealand forestry standards described in detail below but such post-harvest condition is specifically prior to and not including land preparation for the establishment of the subsequent crop:

- (a) harvested trees and logging slash will be removed from water courses, wetlands, roads, culverts and fences (in accordance with standard forestry industry practice in New Zealand);
- (b) logging slash will where reasonably practical be retained on and left in a dispersed state over the Surrender Area;
- (c) the Grantee is to use commercially reasonable endeavours to ensure merchantable waste will not exceed 6 cubic metres per hectare, but in any event, merchantable waste shall not exceed 8 cubic metres per hectare, as assessed by New Zealand standard forestry methods such as Wagner Waste Assessment Method;
- (d) landings and other sites of high soil compaction and disturbance (including tracking) are minimised in both number and size. Where the soil compaction and disturbance is both in excess of acceptable harvesting practice and avoidable, the Grantee will make good the sites by cultivation or other rehabilitation work;
- (e) accumulated logging slash and "birds nests" surrounding landings or skid sites is, where reasonably practical, removed, dispersed or otherwise heaped onto and spread over the landing; and
- (f) foreign bodies and rubbish deposited on the Surrender Area during the Term (including without limitation logging equipment and consumables such as wire rope) are removed from the Surrender Area.
- (g) where the Grantee harvests its Trees inside that part of the Forest Area subject to the Conservation Covenant, the Grantee will use its best endeavours to protect the indigenous understory during such harvesting operations with the intent of ensuring that the land is not treated as deforested under section 179 of the Climate Change Response Act 2002 (as referred to under sections [x.x] of the Maraeroa A and B block Deed of Settlement.

11.1.1 may take such action as may be necessary to remedy the breach or prevent any further damage occurring as a result of the breach; and

SCHEDULE 1

Description of Land:

[572 hectares – subject to survey]

Reserve Values to be protected:

Ecological connectivity

This covenant is intended to reconstruct and restore a continuous ecological gradient between two significant Ecological Areas (the Pikiariki Ecological Area and the Pureora Mountain Ecological Area) within the Pureora Forest Park. The Pikiariki Ecological Area contains all that remains of the dense podocarp forests which once stretched from the foot of Pureora north to the fire-induced forest margin behind the Pureora Village. The Pureora Mountain Ecological Area, a subalpine zone, was established to protect the most outstanding altitudinal sequence of vegetation in the West Taupo forests. As part of restoring a continuous ecological gradient between the Ecological Areas the corridor is intended to facilitate the dispersal and colonisation of protected and threatened wildlife between them. This will contribute to improving the security and long term persistence of wildlife populations.

Flora values

Native species are well represented in understoreys of most unlogged plantation forest and logged plantation areas also have an abundance of regenerating native species including a diverse range of broadleaved small trees and shrubs. For example, the Douglas fir (*Pseudotsuga menziesii*) plantation below the Toitoi track entrance has a lush and diverse assemblage of native trees and shrubs, and plantations near the junction of Cabbage Tree Road and Kotukunui Road have abundant understorey trees of the native *Fuchsia excorticata*.

Regeneration of native species indicates the potential of the land to revert to indigenous forest is very good to excellent.

It is likely that the land contains a range of threatened plants such as *Dactylanthus taylorii*, *Meliccytus flexuosus*, *Pittosporum turned*, *Pimelea tomentosa* and/or will provide new areas for threatened and uncommon plants to colonise.

Fauna values

Within the land, North Island robin have been observed using the Douglas fir plantations below the Toitoi track entrance and kereru have been noted feeding on the abundant fruit crops of the broadleaved shrub and small tree components of previously logged plantation forest on the north eastern area of the land.

Other potential users of the land include:

- Threatened short-tailed bats (and their important association with *Dactylanthus taylorii* as pollinators).
- Threatened long-tailed bats
- Threatened North Island kokako (once plans to re-introduce to Pikiariki Ecological Area are initiated).

- Native passerines and psittacines including North Island rifleman, whiteheads and kakariki.
- Native and endemic invertebrates and herpetofauna (including potentially threatened species).

 - (iv) any harvesting of the exotic trees is to be done in a way that preserves an indigenous understorey as far as possible.
4. Despite clause 3.1.8, the Owner may take Natural Water from the Whareana Stream where it passes through the Land, provided that any taking of Natural Water
 - (i) does not adversely affect the Reserve Values; and
 - (ii) is a permitted activity under a regional water plan or the Owner holds a resource consent for the taking of the Natural Water.
5. The Owner may carry out minor disturbances of earth and minor clearance of vegetation for the purposes of;

THIS DEED is made

BETWEEN

[proprietors] as Proprietors of the Maraeroa A and B Incorporation (the "Governance Entity Incorporation")

AND

THE SOVEREIGN in right of New Zealand (the "Crown").

BACKGROUND

- A. The descendants of the original owners of Maraeroa A and B blocks, the Governance Entity Incorporation and the Crown are parties to a deed of settlement (the "Deed of Settlement") to settle the descendants of the original owners of Maraeroa A and B blocks' Historical Claims that relate to the Maraeroa A and B blocks dated [date of signed deed].
- B. Under clause 6 of the Deed of Settlement, it was agreed that (if that Deed of Settlement became unconditional) the Crown and the Governance Entity Incorporation would enter into this Deed.
- C. The Deed of Settlement has become unconditional.

IT IS AGREED as follows:

1. NOTICE TO BE GIVEN BEFORE DISPOSING OF AN RFR PROPERTY

Crown must give RFR Notice

- 1.1 The Crown must, before Disposing of an RFR Property, give an RFR Notice to the Governance Entity Incorporation in respect of the RFR Property.

Crown may withdraw RFR notice

- 1.2 The Crown may withdraw an RFR Notice at any time before the Governance Entity Incorporation accepts under clause 2.1 the offer in that notice.
- 1.3 If the Crown withdraws an RFR Notice, this Deed still applies to the RFR Property and, in particular, the Crown must give another RFR Notice to the Governance Entity Incorporation before it Disposes of the RFR Property.

2. ACCEPTANCE BY THE GOVERNANCE ENTITY INCORPORATION

Acceptance

- 2.1 If the Governance Entity Incorporation accepts by Notice to the Crown, by the Expiry Date, the offer set out in an RFR Notice, a contract for the Disposal of the RFR Property (an "RFR Property Contract") is constituted between the Crown and the Governance Entity Incorporation at the price and on the terms and conditions set out in the RFR Notice.

Transfer

- 2.2 If an RFR Property Contract is constituted between the Crown and the Governance Entity Incorporation under clause 2.1, the Crown will transfer the RFR Property to:

2.2.1 the Governance Entity Incorporation; or

2.2.2 a person nominated by the Governance Entity Incorporation (a "Nominated Transferee") under clause 2.3.

- 2.3 The Governance Entity Incorporation may nominate a Nominated Transferee by:

2.3.1 giving Notice to the Crown at least [10] Business Days before settlement of the relevant RFR Property Contract is due; and

2.3.2 including in that Notice:

(a) the name of the Nominated Transferee; and

(b) all other relevant details about the Nominated Transferee.

- 2.4 If the Governance Entity Incorporation nominates a Nominated Transferee under clause 2.3, the Governance Entity Incorporation remains liable for all the Governance Entity Incorporation's obligations under the relevant RFR Property Contract.

3. NON-ACCEPTANCE BY THE GOVERNANCE ENTITY INCORPORATION

- 3.1 If:

3.1.1 the Crown gives the Governance Entity Incorporation an RFR Notice; and

3.1.2 the Governance Entity Incorporation does not accept the offer set out in the RFR Notice by Notice to the Crown by the Expiry Date,

the Crown:

3.1.3 may, at any time during the period of two years from the Expiry Date, Dispose of the RFR Property if the price, and the other terms and conditions of the Disposal, are not more favourable to the purchaser or lessee than the price, and other terms and conditions, set out in the RFR Notice to the Governance Entity Incorporation; but

3.1.4 must, promptly after entering into an agreement to Dispose of the RFR Property to a purchaser or lessee, give Notice to the Governance Entity Incorporation of:

(a) that fact; and

(b) the terms of that agreement; and

3.1.5 must not Dispose of the RFR Property after the end of the period of two years after the Expiry Date without first giving an RFR Notice to the Governance Entity Incorporation under clause 1.1.

4. RE-OFFER REQUIRED

4.1 If:

4.1.1 the Crown gives the Governance Entity Incorporation an RFR Notice;

4.1.2 the Governance Entity Incorporation does not accept the offer set out in the RFR Notice by Notice to the Crown by the Expiry Date; and

4.1.3 the Crown, during the period of two years from the Expiry Date, intends to Dispose of the RFR Property but at a price, or on other terms and conditions, more favourable to the purchaser or lessee than the terms and conditions in the RFR Notice,

the Crown may do so only if it first offers the RFR Property for Disposal on those more favourable terms and conditions to the Governance Entity Incorporation in another RFR Notice under clause 1.1.

5. TERMS OF THIS DEED NOT TO AFFECT CERTAIN RIGHTS AND RESTRICTIONS
